## **Projects**

### **Android App Development**

**Jul 2020 - Sep 2020**

Team Size - 4

Hospital Management System: In this project we will aid the problems of patients if they are unable to get appointments with the doctors. This application is a platform to provide help to the patients in having a better conversation with the doctors. The patients would need to register themselves on the application.

### **Web Development**

**Apr 2020 - Jul 2020**

Team Size - 1

In this Project learn about how to make Online Shopping Cart Using HTML, CSS, Bootstrap, SQL, PHP having compatible with front end back end both.

### **IOT Using Arduino**

**Jul 2019 - Aug 2019**

Team Size - 3

This project is about how to Monitor Humidity and Temperature remotely Using Internet Of Things where we show the current Humidity & Temperature data over the Internet Server. It is accomplished by the data communication between Arduino, DHT11 Sensor Module, ESP8266 WIFI module and LCD.

## **Education**

### **Aryabhatta Knowledge University - Bhagalpur College of Engineering**

Btech in Computer Science and Engineering — 69.75 %

## **Skills**

C language

C++

Java

Python

MySQL

Data analysis

Web Development

App Development

Artificial Intelligence

Machine Learning

Project Management

## **Personal Information**

Address :

Isanagar Phulwari Sharif Patna

Gender :

Male

Date Of Birth :

10-Feb-1999

Nationality :

Indian

Marital Status :

Unmarried

Languages :

English, Hindi, Urdu

## **Achievements**

Certified by Roboversity ( Internet Of Things)

Certified By E & ICT Academy, IIT Kanpur (Android App Development)

Certified by Internshala (Web development)
